SUMMARY

Full Stack Developer skilled in Frontend and Backend development and Data Science. Expertise in app development, data analysis, and collaborative project management.

TECHNICAL SKILLS

- **FRONTEND** – Nextjs, React.js, JavaScript, TypeScript, Tailwind CSS.
- **BACKEND** – Nextjs, Nodejs, ExpressJs, PHP, TypeScript.
- **DEVOPS** – Docker, Kubernetes, AWS.
- **DATABASE** – MySQL, MongoDB, PostgreSQL, AppWrite, Prisma.
- **DATA SCIENCE** – Python, Pandas, NumPy, SciKit-Learn, Matplotlib, TensorFlow.

EXPERIENCE

Intern | CodSoft

2023 - 2024

- Developed expertise in various technologies including Google Cloud OAuth2, NextJS, React, Firebase, Appwrite, MongoDB, Vercel, Tailwind CSS, Shadcn UI, API handling, etc..
- Implemented OAuth2 authentication using Google Cloud, ensuring secure user authentication for web applications.
- Engaged in the full software development lifecycle from ideation to deployment, gaining practical experience in agile methodologies.
- Successfully deployed applications to Vercel.

Freelance | Perfect Engineering

2021 - 2022

- Designed and implemented an Inventory Management System utilizing PHP and MySQL database, streamlining stock management and transaction processes for enterprise operations.

PROJECTS

[\[Link\]](#) Nakama AI: Your Personalized AI Companion

Tech Stack: NextJs, Clerk Auth, MongoDB, Prisma, OpenAI API, Llama 2, Vercel.

- Nakama AI is a dynamic web platform empowering users to craft their personalized AI companions.
- Supported by OpenAI and meta/llama-2-13b-chat, this platform enables users to provide instructions and example conversations, shaping their unique chat companion.

[\[Link\]](#) QR based Attendance System

Tech Stack: NextJs, Reactjs, MongoDB, REST API, Tailwind CSS, Vercel.

- Implemented attendance system using Next.js and MongoDB, addressing proxy attendance concerns with innovative QR code generation.
- This system ensured accurate tracking of attendance by generating unique QR codes for each user, enhancing accountability and reliability in attendance monitoring.

[\[Link\]](#) Blog Website

Tech Stack: NextJs, Reactjs, Google OAuth, Firebase, MongoDB, SWR, Vercel.

- Implemented a secure user account management system utilizing Next.js, GCP OAuth2, and Firebase.
- Enabled users to effortlessly create, edit, and delete their blog posts, ensuring a seamless content management experience while prioritizing data security and user privacy.

EDUCATION

BBA - CA | MMCC, Pune

2021 - 2024

CGPA : 9.5/10

Relevant Coursework: Object Oriented Programming, RDBMS, MongoDB, Statistics, Data Structures and Algorithms, Operating Systems, Networking, JAVA, Big Data, Android Programming.

AWARDS & CERTIFICATES

- Participated in Avishkar 2022 – 2023 Zonal level Research Project competition.
 - Claimed victory at Technical Quiz Competition 2023 hosted by Modern College, Pune.
 - Achieved silver medal at C Debugging Competition 2023 organized by Christ College, Pune.
 - Won Tech Setu Hackathon 2023 at MMCC, Pune.
 - Achieved 2nd rank at Web Designing Competition 2023 hosted by MMCC, Pune.
 - Complete Machine Learning & Data Science Bootcamp by Zero To Mastery.
 - AWS: EC2, IAM, ELB, ASG, Route53 by YouAccel Training
 - TCS ION Career Edge by NPTEL.
-
